

A “lesson plan” of Scientific English for Chemistry Student

First week: Reading comprehension 1 of general chemistry.

Second week: Reading comprehension 2 of general chemistry.

Third week: Reading comprehension 3 of general chemistry.

Forth week: Reading comprehension 4 of Inorganic chemistry.

Fifth week: Reading comprehension 5 of Inorganic chemistry.

Sixth week: Reading comprehension 6 of Inorganic chemistry.

Seventh week: Reading comprehension 7 of Organic chemistry.

Eighth week: Reading comprehension 8 of Organic chemistry.

Ninth week: Reading comprehension 9 of Organic chemistry.

Tenth week: Reading comprehension 10 of Physical chemistry.

Eleventh week: Reading comprehension 11 of Physical chemistry.

Twelfth week: Reading comprehension 12 of Physical chemistry.

Thirteenth week: Reading comprehension 13 of Analytical chemistry.

Fourteenth week: Reading comprehension 4 of Analytical chemistry.

Fifteenth week: Reading comprehension 15 of Analytical chemistry.

Sixteenth week: Reading comprehension 16 of Analytical chemistry.
